

Min Thant Phyo

Edinburgh, Scotland | +447464145717 | minthantphyo123@gmail.com

MSc Computing graduate with practical experience in software, web and mobile development, Python, machine learning and computer vision. Strong foundation in programming, databases and APIs, with experience developing a range of academic and personal projects. Seeking a graduate or junior role in software development or IT.

EDUCATION

Edinburgh Napier University, UK

MSc Computing

2025

Info Myanmar University, Myanmar

BSc (Hons) Computing

2024

PROJECTS

Earthquake Monitoring & Risk Classification Mobile Application

Flutter | Dart | Python | Machine Learning | USGS API

- Developed a mobile application for monitoring real-time earthquake information using the USGS Earthquake API.
- Implemented location-based earthquake risk classification using a Random Forest machine learning model.
- Worked with earthquake features including magnitude, depth, latitude, longitude and distance to fault.
- Applied data preprocessing, cross-validation and techniques for handling imbalanced datasets.

Eye-Tracking Mouse System

Python | OpenCV | Computer Vision

- Developed a computer vision application that uses eye movement to control mouse functionality.
- Implemented real-time image processing and eye-tracking techniques using Python and OpenCV.

Flight Booking Website

HTML | CSS | JavaScript | Bootstrap | PHP

- Developed a web-based flight booking application with flight search and booking functionality.
- Implemented front-end interfaces, application logic and database functionality.

E-Commerce Website

HTML | CSS | JavaScript | Bootstrap | PHP

- Developed an e-commerce website with product browsing and user-focused functionality.
- Implemented responsive interfaces and database-driven application features.

Sky War Game

JAVA OOP

- Developed an interactive game application implementing gameplay mechanics, user controls and game logic.
- Applied object-oriented programming and software development principles.

TECHNICAL SKILLS

Languages: Python, C#, Java, JavaScript, Dart, SQL

Web: HTML, CSS, JavaScript, Bootstrap, Angular, ASP.NET Core, Spring Boot

Mobile: Flutter, Dart

Databases: MySQL, MariaDB, SQLite

Machine Learning: Scikit-learn, TensorFlow, Pandas, NumPy, Random Forest

Computer Vision: OpenCV

Tools: Git, GitHub, Docker, Jenkins, Power BI, VS Code, IntelliJ IDEA, Android Studio

CERTIFICATIONS

Professional web UI/UX& Front-End Design Course Certified

Data Analytics and Visualization Job Simulation
